### 🎓 Experienced Tutor | KU Leuven | MSc in Chemistry

I have 16 years of experience teaching IB and A-Level Chemistry, with an MSc from KU Leuven and a BSc from Ghent University. I support students in Belgium and worldwide, focusing on difficult topics like organic chemistry and thermodynamics.

Teaches:

IB Chemistry

A-Level Chemistry

IGCSE Chemistry

GCSE Chemistry

AP Chemistry

Curriculum:

IB

A-Level

GCSE

IGCSE

AP

## Qualifications

**KU Leuven:** MSc in Chemistry (2004–2006)

**Ghent University:** BSc in Chemical Sciences (2000–2004)

## Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

Over the past 16 years, I've worked with students worldwide, especially those in IB and A-Level Chemistry. I've helped them gain confidence in challenging areas, providing support in both classroom content and exam preparation. This experience has allowed my students to consistently achieve outstanding results and succeed in university applications.

My work also involves creating targeted study plans for individual learning needs, including students preparing for AP and IGCSE exams. I strive to ensure that each student not only masters core concepts but also excels in areas requiring analytical thinking, such as organic and physical chemistry.

In addition to exam preparation, I enjoy helping students develop critical study strategies that serve them well beyond high school. Many of my students have been accepted into leading universities, a testament to their dedication and our collective effort in building strong chemistry foundations.
